

Music Beat Clayfield Clinic - Parking

Where do I park to access the clinic?

Most parking is on the street behind the clinic in Drane Street and surrounding streets. This means you walk up the driveway (look for the flag at the end of the driveway). The back entrance to our clinic is at the end of the driveway, to the left (following the Music Beat Therapy signs). Alternatively, you can walk to the left of the building, and walk up to the front entrance on Sandgate road (see the photo and arrowed directions above).

These pictures show you the front of the building on Sandgate Road and the back driveway off Drane Street (approximately 9 Drane St, Clayfield), where most folks will enter:

Front Entrance on Sandgate Road

Music Beat Clayfield Clinic - Parking

Driveway off Drane Street

Most parking in Drane Street behind the clinic has some parking with a two hour time limit and some parking with no time limit, so there should be plenty of parking for everyone.

There is limited onsite parking and we will discuss allocations directly with some of our clients in the coming weeks.

There is parking available in Drane St, Winfred St and Victoria St. Please see highlighted and indicated areas below:

There is also a loading zone next to the clinic, in the neighbouring car park accessible via Sandgate Road (northbound, heading down the hill away from Clayfield College).

Clients can pull up in the loading zone to drop off people arriving for sessions, and to unload wheelchairs, walking devices and other mobility aids. Access is then very easy via the ramp and the front door.

Please note: you will need to move your car once the person accessing music therapy is in the building with our staff.

Music Beat Clayfield Clinic - Parking

Loading Zone next to the Clayfield Clinic is circled in red

We hope you are just as excited as us to make music in our new space.
See you soon!
